BOOSTING THE ECONOMIC, SOCIAL AND CULTURAL VITALITY OF LOCAL AREAS (39)

CONDUCTING BUSINESS IN AN EXEMPLARY MANNER (45)
The fast pace of the world today and the increasing role of new technology in our daily lives have gone hand in hand with growing consumer demand for product quality and greater awareness of environmental issues.

In an environment of ‘consumer hyperchoice’, the FNAC Darty Group is committed to supporting customers in making informed choices.

Well-trained staff who are confident in their expertise (p.15)
Transparent information on innovative products and services (p.25)
Ambitious environmental objectives that are shared with customers (p.35)
Territorial coverage that increases access to culture, services and technology (p.39)
A business ethic that is conscious of its responsibilities and commitments (p.45)

Today our customers want to consume more wisely, which sometimes means consuming less. They choose brands they can trust – brands that are more responsible and transparent and which are committed to a long-term vision.

The FNAC Darty Group has set itself the ambition of ensuring its customers can make an informed choice by guaranteeing the best offer of products and services, reinforced by the expert advice of its sales staff.

This mission is at the heart of our strategy Confiance+ (Trust+), whose aim is to realize the full potential of our brands and our Group. This strategy is embodied in the day-to-day dedication of all our employees: in our stores, online and in all services offered to customers.

I am proud to share the concrete commitments we have made and that are presented in this report – commitments that create a strong relationship of trust between our Group and all its stakeholders.

Enrique MARTINEZ
To become the benchmark omnichannel service platform in Europe, the Group has chosen to focus on five strategic priorities: (1) the development of an open omnichannel platform, (2) the expansion of its network of stores, (3) the diversification of its offer, (4) the launch of innovative services, and (5) a unique loyalty programme.

The implementation of these strategic goals relies on the creation of an open, partner-based ecosystem that allows the Group to benefit from the expertise of specialists to extend its offer and enhance customer experience.

With the successful launch of Confiance+, the Group is today well positioned to fully develop its potential and that of its brands.

**IN 2018, THE GROUP ROLLED OUT ITS CONFIANCE+ STRATEGIC PLAN**

The implementation of these strategic goals relies on the creation of an open, partner-based ecosystem that allows the Group to benefit from the expertise of specialists to extend its offer and enhance customer experience.

With the successful launch of Confiance+, the Group is today well positioned to fully develop its potential and that of its brands.
MORE THAN 60 YEARS
OF ENGAGEMENT
IN ISSUES FACING SOCIETY

ENVIRONMENTAL IMPACT LABEL
- Initially launched by FNAC, a new labelling system was co-constructed with the French government and was extended to Darty in 2018 (p.27).

REPAIRABILITY INDEX
- A pioneer in sustainability, FNAC Darty has chosen to provide information about product repairability before this becomes a requirement (p.30).

PRODUCT LONGEVITY SURVEY
- A first-of-its-kind study based on Darty aftersales service calls measures product longevity and useful life, allowing the promotion of the most reliable brands (p.31).

FIX-IT-YOURSELF FORUM
- Darty’s aftersales service has made its knowledge base available for customers in a platform that encourages do-it-yourself repair (p.32).

WEFIX YOUR PHONE
- The acquisition of WeFix, an express service that reconditions smartphones, is a strong commitment to extending the life of products (p.32).

We decided to structure our CSR policy around six areas of activity that correspond with the key challenges of the Group and which address the concerns of all our stakeholders. In a context of fundamental transformation in both jobs and modes of consumption, increasing the engagement and skills of our employees as well as aiding our customers to be responsible consumers are our main priorities.

Frédérique Giavarini, Group HR and CSR director

Governance that integrates CSR in both strategy and day-to-day business:
- CSR is overseen by the HR director, a member of the Executive Committee.
- The Board of Directors has a CSR committee that meets twice a year.
- The Ethics Committee oversees compliance with transparency, due diligence and data protection laws.
- The compensation of Executive Committee members is partly linked to CSR targets.

In 2018, we carried out a wide consultation with our stakeholders to assess risks in terms of our impacts on health and safety, human rights and the environment, as well as to identify opportunities related to changes in consumption patterns. This approach of analysing risks and opportunities allowed us to incorporate CSR issues in our business lines more easily, as the connection with each activity was clear. In the process, our teams discovered how well placed the Group is to address social issues in its business strategy, given that FNAC and Darty were built from the outset on strong values and commitments.

Valeria Maio, Group CSR manager
**OUR ACTIVITIES**

- **Aftersales service**
  - Promote a culture of repair and provide customer information that fosters responsible consumption
  - #1 repair service in France (1.5 million repairs per year)
  - Acquisition of WeFix
  - Aftersales service study
  - Repairability index
- **Home delivery service**
  - Extend second-hand sales and reuse of products
  - 34% increase in second-hand goods sales in 2018
- **Home delivery service**
  - Recover old appliances and packaging during delivery
  - #1 WEEE* collector in France
  - Reclamation or recycling of recovered cardboard, plastic and polystyrene

**OUR BRANDS AND OUR CUSTOMERS**

- 2 iconic brands
  - Meet customer expectations, particularly in relation to responsible consumption
  - Customers consider FNAC and Darty to be 'more responsible' than their competitors
- 8 million loyalty programme members
  - Give consumers an informed choice
  - Performance rating by the FNAC Darty lab
  - Environmental impact label
  - After-sales service survey
  - Repairability index
- **25,000 employees**, of which 72% are in contact with customers
- **8 million loyalty programme members**
  - Make diversity an asset
  - Increase in the proportion of women recruited

**OUR ECONOMIC ACTIVITY AND OUR OFFER**

- **2 strong and complementary brands**
  - Strengthen the leadership of the Group in its markets
- **€7.5 billion consolidated turnover in 2018**
  - #1 omni-channel retailer in its sector
- **A diversified offer of products and services**
  - Develop diversification and innovation
- **An open omnichannel platform**
  - Expand the network of stores
  - Digitalize the stores
  - Extend e-commerce, click&collect and click&mag
- 780 stores in 12 countries
  - #2 e-commerce retailer in France
  - 49% of online sales are omnichannel

**OUR PARTNERS**

- More than **600 suppliers**
  - Prevent risks and protect SMEs
  - Inclusion of a code of ethics in all contracts and requiring SMEs to sign a charter
- Non-profit organizations
  - Donate unsold products, collect online donations from customers and organize social actions
  - Charity sale of discounted books, CDs, video games, etc., a book drive for charity, and €200,000 in online donations
- **3,500 sellers** on the FnacDarty marketplace
  - Select and verify sellers
  - Measure forthcoming

**OUR PRESENCE**

- **780 stores** in 12 countries
  - Expand the geographical network to increase customer proximity
  - Offer free cultural events to allow broad public access
- **52+ stores** contributing to local economies and employment
  - Sponsor 3 literary awards
  - Involvement of secondary school students and bookstores throughout France

* WEEE: Waste Electrical and Electronic Equipment, **: Net Promoter Score
DEVELOPING OUR GREATEST ASSET: HUMAN CAPITAL

through well-trained staff who are confident in their expertise
Over the last ten years, the Group has experienced the most significant shake-up in its history: the digitalization of cultural content and the growth of online commerce have disrupted the company in its markets.

In a context of increasing digital distribution and heightened competition, we have the advantage of being able to count on the recognized – and complementary – expertise of the staff of our two companies. Our employees are our greatest asset. For our customers, they embody the experience and the pledge of our brands.

This is why it is essential that the Group continues to expand their skills, through tailor-made career development programmes designed by our Training Academy, as well as to create a stimulating and fulfilling work environment.

Frédérique Giavarini,  
Group HR and CSR director

24,956 employees  
(17,440 in France)

88% permanent contracts

80.6% full-time contracts

4.63% sick leave (4.86% in the retail sector)

72+% employees in contact with customers

FNAC Darty is committed to anticipating and adapting to this transition, which has an impact on many of our business activities and jobs. For the Group, this is a strategic priority as well as a responsibility to our workforce.

STRENGTHENING THE QUALITY AND EFFICACY OF SOCIAL DIALOGUE

In 2018, the Group created a European Works Council (EWC) and signed four agreements that redefine and simplify employee representation in France through the creation of an Economic and Social Committee (ESC). This new structure ensures effective concertation with staff representatives as well as guaranteeing a suitable level of proximity between the business units and the employees, which will improve the Group’s agility in rolling out projects.
FOSTERING ENGAGEMENT
AND DEVELOPING A SHARED CULTURE

EACH YEAR, 500 EMPLOYEES FROM OUR HEAD OFFICE PROVIDE SUPPORT IN THE STORES AND LOGISTICS SITE.

During busy periods such as Christmas and Black Friday, staff from the head office come to lend their retail and logistics colleagues a hand on a volunteer basis. These ‘back-up’ operations are incredibly motivating, forging solidarity between teams in these critical trading periods. For the volunteers, these days ‘in the field’ are an opportunity to tangibly experience the day-to-day work of the Group’s different professions: customer service, purchase collection/pick-up, shelf stocking, sales, aftersales service or logistics. This mobilization also allows FNAC employees to discover the world of Darty and vice versa.

DEVELOPING
EXPERTISE AND EMPLOYABILITY

MULTIPLE ACTIVITIES TO ENHANCE SKILLS AND EDUCATION

The Group’s training offer was enhanced in 2018 by pooling the expertise of our two brands. Using innovative programmes that make the best use of face-to-face sessions as well as e-learning, our teams support the Confiance+ strategy, putting the customer at the centre of our jobs.

Dominique Dusart, HR development director

LAUNCH OF AN EMPLOYEE STOCK OWNERSHIP PLAN

To link staff more closely with the future success of the Group, FNAC Darty has initiated an employee stock ownership plan. A vehicle for sharing success and creating engagement, this initiative gives employees the opportunity to indirectly become stakeholders of the FNAC Darty Group.

2018: 4,500 subscriptions
2019: 2nd stock purchase plan

LAUNCH OF AN INNOVATIVE EMPLOYEE-FEEDBACK TOOL

Supermood

Quality of work life, management, training, strategy … employees are surveyed every month on a range of themes via short questions in the Supermood tool. Managers can then use the anonymous responses to gauge the concerns of their teams in real time and improve engagement.

68% of employees surveyed would recommend the FNAC Darty Group as a good place to work (12/2018, 5,837 respondents in France)

52.33% of employees participated in a training course
Around 80% of our repair technicians received training during the year
600+ managers trained as manager-coaches
609 diplomas granted through Validation of Acquired Experience (VAE) certification since 2004

The Group’s training offer was enhanced in 2018 by pooling the expertise of our two brands. Using innovative programmes that make the best use of face-to-face sessions as well as e-learning, our teams support the Confiance+ strategy, putting the customer at the centre of our jobs. For FNAC Darty, the priority is to adapt to the changes transforming the sector and the evolving demands of customers at the same time as pursuing a responsible policy that enables all employees to expand their skills and develop their employability.

©Denis Allard / REA Agency
OFFERING MULTIMODAL TRAINING
THAT DEVELOPS EVERY LINE OF WORK

In addition to product-related training, e-learning was extended to social issues such as combating corruption and influence peddling, protecting consumer rights and personal data, and rooting out sexual harassment.

400+ e-courses for remote access learning

108,877 courses completed in 2018 (compared to 82,774 in 2017), mainly by sales staff

LAUNCH OF THE FNAC DARTY ACADEMY
TO REINFORCE PRODUCT EXPERTISE AND THE QUALITY OF CUSTOMER SERVICE
Inaugurated in 2018, the FNAC Darty Academy now oversees the training offer. To support the strategic ambitions of the company, the Academy develops multi-format programmes based on a combination of face-to-face sessions and e-learning. The in-sourcing of training allows the Group to capitalize on the expertise and experience of its two brands and to shape course content to needs.

CUSTOMER EXCELLENCE IN A DEDICATED CERTIFICATION TRAINING PROGRAMME

The quality of the relationship with customers is central to the strategy of the Group. Last year, an ambitious training programme was rolled out to respond to this priority. Leading to certification, it boosts the employability of employees participating in the course.

INNOVATION TO SUPPORT TRAINING
MAKING EMPLOYEES ACTIVE PARTICIPANTS IN TRAINING

The NAPS app motivates learning with its fun approach and its progress-tracking feature. It allows learning to be consolidated through use on the job.

5,000+ FNAC Darty ‘NAPSters’ (since 2016)

CUSTOMER EXCELLENCE 2018–2020
Scope
800 employees in contact with customers: sales staff, cashiers, delivery drivers, home service technicians, logistics specialists, aftersales receptionists, etc.

Objective
To improve the quality of customer service and develop employability by enlarging access to sales and marketing careers.

Result
Employees participating in the programme will receive nationally recognized professional certification*.

Following a large-scale programme that trained almost 600 supervisors as manager-coaches, now the Customer Excellence course aims to train our customer-facing employees. This programme arms staff with best practices in terms of customer and sales excellence. Consumers are better informed than ever: in this context, our goal is to give employees new tools so they can best meet customer needs, gain confidence and enjoy work more. The course also allows participants to develop their employability and, for those who wish, to work towards a sales career.

Anne-Laure Dugert,
Skills development manager

* Recognized by France’s National Commission of Professional Certification
PROMOTING THE EMPLOYMENT OF PEOPLE WITH DISABILITIES

In the conviction that diverse profiles are a valuable asset and a source of creativity, FNAC Darty has long been committed to the inclusion of disabled people.

Disability is not something exceptional. Integrating people with disabilities strengthens team culture and pushes us to be innovative. Recruiting and training people with hearing impairment for customer service roles in stores (at checkout and as book sellers) is a concrete way that we are putting this conviction into action.

This professionalization programme was awarded with an LSA Diversity prize in 2018.

Florence Maurice, Diversity and quality of work life manager

PRIORITIZE!NG EQUALITY BETWEEN WOMEN AND MEN IN THE WORKPLACE

For FNAC Darty, gender equality at work means ensuring that women and men are able to develop their careers on a completely equal basis, including appointment to leadership positions.

I took part in a group of women store managers who worked together to identify the obstacles that hinder women and the drivers that could aid them in becoming store managers. We helped to develop a programme to kindle women’s interest in doing this job, by allowing them to envisage themselves in the role and by supporting them professionally and personally.

Christiane Buisson, Store manager, FNAC Nantes

FNAC SPAIN COMMITTED TO DIVERSITY!

An agreement was signed with the La Caixa Foundation’s Incorpora programme, which works for the socio-economic integration of the most vulnerable (people with disabilities, the long-term unemployed, seniors, immigrants, etc.).

6% of our employees in France have a disability

2nd FNAC Darty Handi’Trophée*: 3 prizes

*A contest awarding stores with the best initiatives to promote disability employment

FNAC SPAIN

IN THE FEMININE

TARGET: 30% OF WOMEN STORE MANAGERS (COMARED TO 23% NOW)

3 priorities:
- Increase the visibility of the profession and highlight women’s success in it
- Facilitate working conditions to respect work/life balance
- Support women who want to move into this career

38% of staff are women

47% of full-time recruits are women

27% of the Executive Committee are women

60% of the Board of Directors are women

Winner of the jury’s Coup du Coeur prize at the 5th LSA Diversity and CSR awards!
PROMOTING EQUAL OPPORTUNITY AND YOUTH EMPLOYMENT

ENRIQUE MARTINEZ

Enrique, why did you accept the role of sponsor?

FNAC Darty got involved in this project to assist young people from disadvantaged neighbourhoods to get a start in the professional world. We are proud to be a partner of this inspirational programme. Not to mention that as a sports fan and a company director, I wholeheartedly share the values of the organization.

During your evening with the participants, what message did you want to convey to them?

I know that the business world can intimidate young people. I wanted to reassure them that companies, in most cases anyway, take into account the well-being, fulfilment and career progression of employees. And to express my belief that the value and strength of a company rely on the women and men who work there. They should have confidence in their youth, their energy and their future!

WORK–STUDY PROGRAMMES

Our Group encourages vocational training for young people through a proactive recruitment policy for work–study contracts.

more than 780 work–study interns in 2018

FNAC Darty is committed to equal opportunity, working with non-profit partners such as the Institut Télémaque and Sport dans la Ville. The latter honoured Enrique Martinez by asking him to sponsor the 2018 ‘Job dans la Ville’ programme.

COMMITTED TO AN INFORMED CHOICE

through transparent information on innovative products and services
In recent years, consumers have become more aware of the impact of their purchases on the planet’s resources; they are increasingly challenging producers and distributors on the subject. Our latest annual customer survey indicates that 75% of them want us to take steps to extend product longevity. For our Group, this is an opportunity to increase our initiatives promoting honest business – an effort in which the customer can help us to make things happen. To assist us in this, FNAC Darty can rely on the DNA of our two brands.

Vincent Gufflet,
Sales director, products and services, France

In 2013, FNAC put in place a system of environmental labelling for televisions, which in 2015 was extended to PCs, tablets and mobile telephones sold in stores as well as online at fnac.com. This gave customers new selection criteria for choosing a product: information related to its impact on the climate and the non-renewable natural resources used throughout its lifecycle, from its manufacture to its transport, utilisation and disposal.

A pioneer in the practice, in 2017 and 2018 FNAC Darty participated in creating an environmental labelling benchmark with the French Ministry of Ecological and Inclusive Transition, the Agency for the Environment and Energy Management (ADEME) and three other companies. The logo and methodology arising from this unprecedented collaborative effort were rolled out in 2018 on the fnac.com and darty.com websites and throughout all FNAC stores.

The FNAC lab is a unique entity that has been working at the service of FNAC customers since 1972. Equipped with a range of sophisticated measurement and analysis systems, each year the lab’s experts test the technical performance of hundreds of new electronics products. The lab’s objective scientific methods are recognized by leading brands, which regularly use its services to evaluate their prototypes.

Visit to the FNAC Lab by Brune Poirson, the French secretary of state to the Minister for Ecological and Inclusive Transition.

© Denis Allard / REA Agency

In 2018, 1,038 tests were carried out on 492 products.

FNAC DARTY, COMMITTED TO ...

Electrical and electronic products have a significant impact on the environment: the extraction of natural resources, pollution, greenhouse gas emissions, waste … Working towards a circular economy reduces these impacts.

WINNER OF THE GRAND PRIX ‘CIRCULAR ECONOMY’

FNAC Darty was awarded the top prize in the category ‘Enterprise and the Environment’ at the 2018 Pollutec trade show in Lyon.

IN 2018, FNAC DARTY STEPS AHEAD WITH PROACTIVE INNOVATIONS

Last year, four key projects were launched that promote a more circular economy:

- **REPAIRABILITY INDEX**
  A pioneer in sustainability, FNAC Darty has chosen to provide information about product repairability before this becomes a requirement.

- **PRODUCT LONGEVITY SURVEY**
  A first-of-its-kind study based on Darty aftersales service calls measures product longevity and useful life, allowing the promotion of the most reliable brands.

- **WEFIX YOUR PHONE**
  The acquisition of WeFix, an express service that reconditions smartphones, is a strong commitment to extending the life of products.

- **FIX-IT-YOURSELF FORUM**
  Darty’s aftersales service has made its knowledge base available for customers to encourage do-it-yourself repair.

We are proud to have shaken up the market by allowing customers to choose products that can be repaired and by making this repair more accessible. These innovations launched in 2018 illustrate our deep conviction that FNAC Darty has a role to play in the transition that is shifting our society to more responsible modes of consumption.

Régis Koenig, Director of services policy, FNAC Darty

©Denis Allard / REA Agency
INNOVATIONS IN 2018
INFORMATION ON PRODUCT REPAIRABILITY

Our team analyses appliances to evaluate their repairability according to a very specific set of criteria. For customers, this information is important when choosing one product over another: the repairability index allows them to make an informed choice. This has been the mission of the FNAC lab since its inception, and every year we work to develop it further.

Lionel Costa,
Development manager,
FNAC lab

At a time when brands are called into question for their role in the programmed or premature obsolescence of products, FNAC Darty has chosen to take a stand against these practices by providing information on repairability. This initiative, launched in 2018, relies on the technical expertise of the FNAC lab, which analyses the repairability of laptop computers based on 12 criteria, including the availability of disassembly instructions and diagnostic support documents, the ease of disassembly, and the availability and price of replacement parts.

LAUNCH OF THE PRODUCT LONGEVITY SURVEY

This study, which will be carried out each year, prioritizes transparency by indicating the useful life of 15 types of products (including LHA*, SHA**, and high-tech), allowing the most reliable brands to be identified. It is based on post-purchase surveys conducted with customers as well as on the availability of replacement parts from suppliers and on the analysis of almost 600,000 repairs carried out by Darty’s aftersales service.

Jean-Yves Prigent,
Technical director for extending product life

This annual survey, a world first, aims to help customers choose wisely and should thus contribute to promoting change in manufacturing practices by encouraging companies to design products that are more repairable and more durable.

* Large household appliances, ** Small household appliances
**INNOVATIONS IN 2018**

**PROMOTING REPAIR**

**THE WEFIX ADVANTAGE**

WeFix is a network of 59 outlets in France and Belgium that offers an express repair service (20 minutes on average) for the main models of smartphones – making 12,000 repairs per month – and a sales point for re-conditioned phones. At the beginning of 2019, two WeFix spaces were opened in FNAC stores, and the Group plans to double the network of WeFix outlets over the next two years, recruiting more than 150 personnel!

**EXTENDING PRODUCT LONGEVITY WITH THE FIX-IT-YOURSELF FORUM**

With the experience gained from more than 2.5 million products repaired each year, our aftersales service has built up an impressive knowledge base over time. Since 2018, some of this information has been made openly available on the sav.darty.com website. The forum is a platform where visitors and technicians can share their experiences and expertise to encourage do-it-yourself repair and extend the life of products. **This ‘repair Wikipedia’ already receives 160,000 unique visitors a month!**

**GIVING A SECOND LIFE TO PRODUCTS**

**To develop the reuse market, we formed a specialist team dedicated to the revalorization of products. Driven by rising customer demand, second-hand sales have continued to grow; in 2018, we took the FNAC second-hand label as a model to create the same for Darty. In parallel, we have deepened our partnerships with social economy initiatives through donations and drives. Last but not least, a ‘Responsibility Charter’ now governs all FNAC sales to discounters to ensure the responsible reprocessing of sold products.**

**Julien Pichot,**
Product second life manager

**A LONG PARTNERSHIP WITH THE ENVIE NETWORK**

Since 1984, Darty has entrusted nearly **200 broken appliances** a day to ENVIE, a non-profit that aids job seekers to return to work through giving products a second life.

**SECOND-HAND RESALE**

Tested, reconditioned, cleaned and repackaged by our expert teams: **34,000 products** in perfect working order were sold on the FNAC and Darty second-hand marketplaces in 2018 – an activity that is set to accelerate in 2019.

**CHARITY DONATIONS**

In 2018, **21,000 unsold products** were donated to non-profit organizations. FNAC gave publishing products to the charity **EmmaüsFrance** and Darty supplied large and small household appliances to **EmmaüsDéfi**, which assists jobseekers. In 2019, new partnerships will be forged in aid of hospitalized children.
For six years, FNAC has invited its customers to give their books a second life in aid of

Every year for the last 10 years, FNAC has partnered with the charity Secours Populaire to organize a large discount sale of unsold books, CDs, toys, video games, etc. The proceeds are donated to the non-profit, which organizes holidays for hundreds of disadvantaged children every year.

Every year for the last 10 years, FNAC has partnered with the charity Secours Populaire to organize a large discount sale of unsold books, CDs, toys, video games, etc. The proceeds are donated to the non-profit, which organizes holidays for hundreds of disadvantaged children every year.
LIMITING THE CO₂ IMPACT
OF TRANSPORTING MERCHANDISE

Transporting goods from warehouses to stores, posting or delivering household appliances, home visits for repair services or to collect old equipment: logistics are central to the Group’s activities.

1.6 million home deliveries of large household appliances
210 K tonnes of CO₂ from transport emissions
12.2 million parcels delivered

Our actions focus on three main areas: (1) limiting the distance products have to travel by virtue of our network of warehouses and the ability to pool the flow of FNAC and Darty goods, (2) maximizing and optimizing the loading of trucks, and (3) prioritizing multimodal transport whenever possible. We are also experimenting with alternative transport systems, in a constant quest – in our partnerships and our processes – for innovative ways to limit our impacts.

Karine Damour,
Logistics and transport flow director

In the last several months, we’ve been on the hunt for the delivery truck of the future: it needs to emit the least amount of CO₂ and fine particles as possible. We’ve tested several types of electric and natural gas vehicles (NGVs) in real conditions, and our preference is for NGV trucks: they have over 150 km of autonomy, emit 80% less CO₂ (in the case of bioNGV) and 93% less fine particles than diesel vehicles. The only limitation is the currently low number of natural gas stations.

As a result the Group has decided to convert some of its diesel trucks to natural gas to service the largest metropolitan areas.

WASTE COLLECTION, RECYCLING AND RECOVERY

FNAC DARTY HAS ITS OWN WASTE COLLECTION FACILITY

FNAC Darty is committed to the collection and recycling of waste. Created by Darty in 1994, the Mitry-Mory waste sorting site centralizes waste management in the Paris region. When large household appliances are delivered to a customer, the goods are unpacked in the truck. The packaging as well as recovered old appliances are taken to Mitry-Mory to be reconditioned or recycled.

WE EE COLLECTION AND RECYCLING

#1 WEEE collector in France

45,188 tonnes collected and recycled by ÉCO-SYSTÈMES in 2018

RECOVERY OF PACKAGING

5,000 tonnes of cardboard and 130 tonnes of plastic recovered and reused in 2018 in France

‘2 FOR 1’ COLLECT AND RECOVER

Launched ten years ago, this scheme allows customers to give up to two appliances for recycling when a large household appliance is delivered.

BOOSTING THE ECONOMIC, SOCIAL AND CULTURAL VITALITY OF LOCAL AREAS

FRANÇAIS / FRANCE

To celebrate our anniversary, we brought to the streets what we most like to offer in our FNAC forums throughout the year: free access to culture in intimate encounters between musicians and spectators. The street event ‘20 years, 20 flash concerts’, was our way to thank the artists and the Portuguese public for these two decades of shared experience.

Ines Condeco, Communications director, FNAC Portugal

IN INVOLVING CUSTOMERS IN THE GROUP’S SOCIAL ACTIONS

MICRO-DONATIONS: CHANGING LIVES WITH ONE CLICK

FNAC Darty involves its customers in its charitable activities by offering them the opportunity to make small donations when they make a purchase on fnac.com or fnac.spectacles.com. Added together, these small amounts make big things possible!

FNAC.COM

€103,000 collected in 2018

FNAC.SPECTACLES.COM

€115,000 collected in 2018

(£245,000 since it launched)

FNAC, TOY DRIVE FOR CHILDREN IN NEED

In partnership with France’s Secours Populaire, each December, FNAC stores invite their customers to donate new gifts that will make holidays more festive for low income families.

COLLECTE DE JOUETS

Déposez un cadeau neuf dans la hotte = 1 enfant dans la précarité comblé pour Noël

CONDUCTING BUSINESS IN AN EXEMPLARY MANNER

through a business ethic that is conscious of its responsibilities and commitments
Increasingly, FNAC Darty is relying on external partners to offer its customers the best possible range of products and services. These partnerships entail a great responsibility: guaranteeing that the rights of each party and the ethical principles of the Group are respected by all.

To this end, in March 2019 the Group signed a code of good conduct for e-commerce, committing the company to ensure fair trade relationships with its suppliers, notably small businesses.

In our concern to respect the Group’s ethical commitments in every circumstance, FNAC Darty has strengthened its Code of Business Conduct and its Gift and Benefits Charter. These documents, translated into every language of the countries where the Group operates, are appended to the internal regulations of each business entity and are available online on the different company intranet sites so that employees, management committees, the executive committee and company representatives can ensure these commitments are shared.

PREVENTING CORRUPTION AND INFLUENCE PEDDLING

IN 2018, IMPLEMENTATION OF THE GDPR, COORDINATED BY THE DPO* WORKING WITH EACH BRANCH

Implementing a governance plan for personal data protection

Awareness-raising and training of employees in the Group

Documenting procedures and internal processes

Better informing users about the data collected

Defining limited data retention periods

Improving the security of information systems for data processing

Updating contracts and guarantees from suppliers/partners

COMMITTED TO

IN AN EXEMPLARY MANNER

CONDUCTING BUSINESS

PROTECTION OF PERSONAL DATA

FNAC Darty is actively working across all business lines to improve processes in order to ensure that both customers and employees have greater control of their data and to increase transparency.

In a context of accelerating digital transformation, our customers’ trust depends on increased protection of their data. In 2018, FNAC Darty rallied all its teams to develop and implement this major GDPR project. Today, a culture of data protection is an integral part of FNAC Darty.

In 2018, the Group put in place a COMPLIANCE ACTION PLAN based on risk mapping all its activities as well as those of its suppliers and partners. This plan notably led to enhancing the policy of responsible sourcing of own-brand products, given the Group’s direct responsibility in their design, manufacture and transport.

Own-brand or licensed products are supplied directly from manufacturers, many of which are in China. We audit 100% of new suppliers not just according to quality criteria, but also ethical, social and environmental criteria. These factories are then subjected to subsequent audits every two years.

Hervé Hédouis, Director of sourcing

27 verification criteria linked to ethics, health and safety, human rights and the environment

En 2018, 99 out of 222 factories audited
